

SAFETY FLASH

Walking and Biking to School

We all know that what children do in school is very important. But, getting to school is also important. Because of minimal supervision, young pedestrians face a wide variety of decisions making situations and dangers while walking to and from school. Here are a few basic safety tips to follow:

- **Mind all traffic signals and/or the crossing guard -- never cross the street against a light, even if you don't see any traffic coming.**
- **Walk your bike through intersections.**
- **Walk with a buddy.**
- **Wear reflective material...it makes you more visible to street traffic.**
